

ANATECH

Poor Indoor Cellular Coverage ?

cellular in-building booster solutions

custom engineered solutions providing cellular coverage for spaces from 100 to 100,000 square feet

All solutions are multi-carrier, providing the most cost-effective coverage solution for all cellular technologies.

Our systems are designed to provide consistent coverage area, optimum performance, and maintenance free operation.

We provide carrier-approved coverage solutions ensuring all your cellular devices work reliably indoors.

For more information, see our web site, or call.

Anatech provides full, in-house, end-to-end cellular in-building booster solutions;

- site & building analysis
- 3D terrain coverage analysis
- system design
- installation
- service
- 1-year performance guarantee

Anatech also guarantees cellular network integrity. This means the in-building system will work as designed yielding the best improved in-building coverage without adversely affecting the carrier networks in the area.

advanced two-way radio & cellular in-building communications solutions
